PROJECTS

PCPA Vizag Monastery — Freelancing Website

Began freelancing to apply and showcase my skills. Delivered a stunning website to a client, featuring 3D animations, a functional form section, responsive design, and an exceptional UI/UX. (View Project: [PCPA Monastery Website](#)).

NxtWatch — YouTube-style video streaming web application

- Built a fully responsive video platform (mobile, tablet, and desktop) using React, Context API, and JWT authentication.
- Implemented Like, Dislike, and Save functionality with persistent state management and dynamic routing for video details.
- Added custom enhancements including interactive profile buttons, working social media links, and UI refinements beyond the original requirements.

(View Project: [NxtWatch Web Application](#))

Portfolio Website — Frontend Website

I have built my Portfolio Website to showcase my skills, projects, and certifications those I gained over the years as a Web Developer. (View Project: [Portfolio Website](#)).
